

Atharva Kumbhar

Full Stack Developer

+91 93229 13729 | atharvakumbhar631@gmail.com | LinkedIn | GitHub | Portfolio | Navi Mumbai, Maharashtra

CAREER OBJECTIVE

Results-driven Full Stack Developer and final-year Computer Engineering student with hands-on experience in React, Node.js, Java, and cloud deployment. Passionate about building scalable, end-to-end web applications and eager to contribute to innovative engineering teams.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design, React Hooks

Backend: Node.js, Express.js, REST APIs, Java, Python

Databases: MySQL, MongoDB, RDBMS, Query Optimization

DevOps & Tools: Docker, Apache Kafka, Git, GitHub, VS Code, WebContainers

Concepts: Full Stack Development, OOP, DSA, CI/CD, System Design

PROJECTS

AI-Powered Generative Deployment Platform (Major Project)

Jan 2025 – May 2025

React, Node.js, LLMs, Docker, Apache Kafka, ClickHouse, WebContainers, REST APIs

- Built a prompt-to-production platform automating the full web app lifecycle — from natural language input to live cloud deployment — cutting time-to-deploy from hours to under 5 minutes.
- Integrated LLM APIs to generate structured full-stack code (frontend, backend, configs) with post-processing validation and standardized project scaffolding.
- Implemented Docker containerized build pipelines ensuring reproducible, isolated deployments with real-time monitoring via Apache Kafka and ClickHouse analytics.

E-Commerce Database Management System

Jan 2024 – Apr 2024

MySQL, Stored Procedures

- Developed a full-stack e-commerce system with React frontend and Node.js/Express backend, featuring product listings, cart, and order management for 100,000+ records.
- Designed normalized relational schema reducing data redundancy by 40%; applied indexing and query optimization improving performance by 35%.

Personal Portfolio Website

Dec 2023 – Jan 2024

React, HTML5, CSS3, JavaScript

- Built a fully responsive portfolio using React hooks and component-based architecture with smooth animations; optimized load time by 50% via asset compression and lazy loading.

EDUCATION

B.E. Computer Engineering — Vishwaniketan's IMEET, University of Mumbai

2020 – 2025

CGPA: 6.5 | Relevant: DSA, DBMS, Operating Systems, OOP, Full Stack Development

CERTIFICATIONS & ACHIEVEMENTS

- Web Development — Internshala (Oct 2023): HTML, CSS, JavaScript, Bootstrap — 8-week training.
- SQL for Data Science — Coursera (In Progress): Advanced SQL querying, window functions, data analysis.
- IoT Monitoring & Optimization — Hands-on project involving sensor integration and data analysis.
- NSS Member 2024–25: 120+ hours community service | Inter-college coding competition: 4/5 challenges solved.

Problem-Solving | Team Collaboration | Communication | Adaptability | Attention to Detail
